

Empowering healthcare professionals
with smart medtech solutions
for better patient outcomes.

capacitamos profissionais de saúde
com tecnologia médica inovadora
pela saúde dos pacientes

Who we are Quem somos

Founded in 1931, we are a long-established distributor representing global leading manufacturers, delivering consistent value to hospitals across Portugal.”

Fundada em 1931, somos um distribuidor de referência que representa fabricantes líderes mundiais, garantindo valor contínuo aos hospitais em todo o país

National Coverage Cobertura Nacional

We operate nationwide - Mainland Portugal, Madeira and the Azores Islands - ensuring proximity, fast logistics and consistent service levels.

Operamos com cobertura nacional - Continente, Madeira e Açores — assegurando proximidade, rapidez logística e níveis de serviço consistentes.

Healthcare Ecosystem Ecosistema de Saúde

We serve the SNS (National public Health System), the major private healthcare groups and IPSS hospitals, covering multiple clinical environments and specialties.”

Servimos o SNS, os principais grupos privados e as IPSS, cobrindo vários contextos e especialidades clínicas.

Certifications & Reliability Certificações & Fiabilidade

We are an INFARMED - Portuguese Notified Body authorized distributor, ISO 9001:2015 certified, and recognized as PME Líder since the first edition."

Somos distribuidores autorizados pelo INFARMED, certificados ISO 9001:2015 e distinguidos como PME Líder desde a 1.^a edição."

©certificação **PME**

Environmental Responsibility & Sustainable Responsabilidade Ambiental & Sustentabilidade

By choosing partners that manufacture in Europe, we reduce environmental impact and ensure sustainable industrial practices.

- Lower CO₂ due to shorter transport routes
- Production using renewable energy
- Reduced waste and optimized packaging
- Compliance with EU environmental standards
- Preference for LCA, ISO-14001, and recyclable materials

Ao escolhermos parceiros que produzem na Europa, reduzimos a pegada ambiental e garantimos práticas industriais sustentáveis.

- Menos CO₂ graças a transportes mais curtos
- Fábricas com energia renovável
- Menos resíduos e embalagens otimizadas
- Conformidade com normas ambientais europeias
- Preferência por LCA, ISO-14001 e materiais recicláveis

1 Consultoria personalizada

Para obtermos uma visão geral dos acessórios que necessita, analisamos o seu inventario de acessórios.

Os resultados desta análise permite-nos uma compreensão clara dos requisitos específicos dos seus acessórios.

Trabalhamos consigo para criar um "supply concept" adaptado às suas necessidades.

2 Análise e Avaliação

A normalização simplifica os seus custos de logística e otimiza o seu inventario de acessórios

O nosso método de análise do seu inventario assenta em três fatores:

- Identificação de itens idênticos
- Eliminação de produtos duplicados
- Substituição por alternativas de produtos comparáveis

3 Portfolio

Criamos um portfólio de acessórios personalizado.

O objetivo é reduzir os seus custos, mantendo a qualidade dos seus acessórios.

Desta forma, beneficia de um processo de aquisição simplificado.

Reduz custos de logística e aquisição, como também beneficia do elevado padrão de qualidade dos nossos acessórios.

AnciTrak, Automate the Way You Check Surgical Instruments and Sets

AI-powered station that identifies, verifies, and documents surgical instruments within seconds. By securing tray recomposition with embedded AI, it reduces errors and accelerates instrument handling

Technical and Maintenance Support

- **Servicing & Repairs:**
Involves preventive maintenance, calibration, and repairs to ensure devices meet the safety and performance specifications set by the manufacturer.
- **User Support:**
Include real-time data insights, troubleshooting, and predictive analysis to help healthcare providers or patients manage device use
